Re: Employment Drug Testing Services

Advantage Drug Testing was founded in 2005 and for twenty years we have built relationships based on the importance of client support and partnership.

In 2007 Advantage joined STAM and have been a member company for 18 years. We have developed strong relationships with the school bus industry and are **proud to call more than thirty STAM member companies our clients.**

Advantage currently supports hundreds of Massachusetts employers, more than eighty government entities, most of the area hospitals, and both regulated and non-regulated businesses of all types.

I would like to thank STAM and all of our clients that are attending the STAM conference. Our entire team appreciates the fact that you have chosen to work with us. We are here to assist you in any way that we can.

All the best!

Ted Dawson
